

Dear Students

Re: Introduction to pathology.

Course organizer: Dr Heyam Awad.

Welcome to the introduction to pathology course.

This course aims at giving you a background knowledge that is essential for understanding the pathogenesis of diseases. You will need this knowledge in the coming years so please try to benefit from this course as much as you can.

This course will cover three topics

1. Cell injury (5 lectures), which will be taught by Dr Manar Hajjir
2. Inflammation and repair (9 lectures), taught by Dr Mousa Al Abbadi
3. Neoplasia (11 lectures) taught by me, Dr Heyam Awad.

All three instructors are histopathologists with a good teaching experience, all are kind, cooperative and easily approachable, so please do not hesitate to contact us when you need any help with the course material.

I will keep posting information and announcements on the e learning site, so please check keep checking the site. You can also ask questions or start discussions about the course in the site; everyone can participate and offer answers or comments.

With this letter, I am sending the course timetable and syllabus, please look at these as they will help you to have a good understanding of what to expect.

Please do not hesitate to contact me at any time during the course, we are here to help you.

Good luck
